

Response to Rejections of Record

All of the claims have been replaced. It is believed the objection relating to slash between "into" and "onto" is obviated thereby, as is the rejection of claim under 35 U.S.C. 112, second paragraph.

The double patenting rejection is noted. Attached hereto is a Terminal Disclaimer which is believed to obviate the rejection.

The rejection stating that the claims 2, 3, 4, 7, 8 and 10 fall within claims 27, 28, 29, 35, 36 and 37 of U.S. Patent 6,306,621 are believed obviated by the newly presented claims which require either a galactoside or a glucuronide. The claims in the prior patent require both. Hence, the claims as now presented do not fall within the claims of the prior patent.

It is believed the claims are now in condition for allowance. Allowance of the claims as now presented is respectfully requested. If discussion may facilitate prosecution, the examiner is invited to contact the undersigned at 703 425 8405.

Respectfully submitted,

Glenna Hendricks, Reg. No. 32,535
